Description

Description: ISTRIA, KANFANAR - Renovation of a semi-detached stone house in the center Kanfanar is located on the western part of the Istrian peninsula and is well connected with the rest of Istria, thanks to the fact that the main hub of the Istrian Epsilon is located here. Thanks to its favorable geographical location, it has a very mild Mediterranean climate with an average of 2,300 hours of sunshine per year. Kanfanar Municipality is famous for its many sights. From the ruins of the medieval city of Dvigrad, the beautiful green-blue oasis of the Lim channel, numerous archaeological sites, to the rich sacred heritage and local products. In the center of Kanfanar, we mediate the sale of this interesting property. It is a two-story stone house with a living area of 240 m², whose owners have started renovations, so that the house will one day shine in its full glory. New slabs were installed, a terrace and a mansard were built, as well as a barn. The house has

electricity, water and sewage connections. On the 330 m2 garden, the owners planned a swimming pool and parking for two cars. The house is sold in the condition that can be seen in the photos. The project and building permit are valid, so the buyer can immediately proceed with the renovation. Due to the proximity of all amenities necessary for life, this stone house can one day become a real beauty for tourist rental or for a peaceful family life. Dear clients, the agency commission is charged in accordance with the General Business Conditions:
